

# Product/Service Information

## **Elevator Cellular Phone Lines**

Cut the cord on elevator phone lines and save 35% or more on monthly phone line fees. Our fixed cellular landline is easy to install and works with all elevator telephones and monitoring services.

## **Elevator Phone Monitoring Service**

Our call monitoring and dispatch center has been delivering professional service for over twenty years. Our staff has extensive technical and interpersonal training to assist in emergency and non-emergency situations.

## **Elevator Emergency Telephones**

MyLinkLine will only install elevator telephones that meet code requirements. We also comply ADA, ASME, ANSI and IBC codes in addition to all State and Local requirements if applicable. Volume pricing available.

MyLinkLine Communications has over 20 years of experience in the telephone solutions industry. We offer a variety of telephone products and services that include cellular landlines, emergency elevator telephones and elevator telephone monitoring services.

At MyLinkLine Communications, we believe high-quality service is more than a privilege. It's your right. Because we value our client's business - and time - we're committed to delivering the highest customer satisfaction possible.

*The Leading Provider of Elevator  
Communication Products.*
