Elevator Cellular Telephone Lines

Elevator Telephone

Cellular telephone landlines are less expensive to install and interface well with new and existing emergency phone equipment.

MyLinkLine Cellular

Our innovative technology replaces the need for dedicated phone landlines and uses cellular telephone networks.

Monitoring Center

Emergency calls are transmitted using cellular networks to your 24-hour monitoring center.

Cut the cord on elevator phone lines

Go cellular and save 35% or more on monthly phone line fees

If you currently pay for an elevator telephone line you are paying too much. Our fixed cellular landline is easy to install and works with all elevator telephones and monitoring services.
